DIRECTIONS

ARBORCHEM CLEAN CUT is a combination of superior grade petroleum oil plus environmentally sound surfactants for use on non-crop, industrial sites such as utility, railroad and pipeline rights-of-way, wetlands, roadsides, substations, plant sites, drainage ditches, switchyards, logging roads and bridge abutments.

ARBORCHEM CLEAN CUT increases the effectiveness of most postemergence weed and woody plant herbicides by improving the wetting and spreading of spray solutions and enhancing the penetrating characteristics of herbicides. ARBORCHEM CLEAN CUT also replaces diesel oil or fuel as a late season spray additive.

RATES

Low volume aerial or ground 0.5-1 qt/Acre
 High volume ground spray 1 qt/100 gallon

Double above rates for late season or where additional wetting or penetration is required.
